

Our Three-Way Guarantee

We've been developing our motor repair and rebuilding expertise for over half a century. We must be the very best by now. And we are. Our rebuilding facility is filled with state-of-the-art equipment and the highly trained craftsmen needed to make it hum with efficiency. We actually rebuild the motors ourselves, there's no outside repair company involved. All of our premium rebuilt motors meet precise manufacturers' specifications. And to ensure the quality of our rebuilt motors, we follow a precise checklist of more than 20 refurbishing procedures for our Joliet Guaranteed line of AC and DC motors. We get the job done, and do it right the first time! And as the product name implies, we guarantee our work! For one full year! If your goal is to save money, you couldn't do better than **JOLIET GUARANTEED!**

- 1.** When you order from Joliet Equipment Corporation, you are guaranteed fast and courteous service. All questions will be answered as quickly and politely as possible. We also guarantee that all NEMA motor orders will be processed immediately. We'll advise you of any nonstock items, and if your order cannot be processed immediately, we will notify you by telephone and let you decide whether or not you want to back order.
- 2.** When we ship your order, you are guaranteed a choice of shipping methods to meet your scheduling needs and budget. If we cannot fulfill your request for shipping method and schedule, you will be notified by telephone and given the opportunity to change shippers. That way, you are in control of the situation at all times.
- 3.** When you receive your order, you are guaranteed that all products or parts described as "new" or "rebuilt and guaranteed" and any other products or parts sold to you will be free from any defects in materials and workmanship. This warranty covers both "new" and "rebuilt and guaranteed" motors for 12 months following the date of purchase. This no-nonsense, no-frills guarantee applies to every standard motor we sell. It's as simple as that!
